If you go to the board index, the last forum in OTHER STUFF is the Testing Forum Sandbox where you can by trial and error attempt to post photos until you get it right. Just click NEW TOPIC and then click the Attachment tap to simply add photos from your computer or phone. It is pretty user friendly. Just make sure that your photo is not too large. It should be 480 x 640 pixels. You can experiment in that forum until you get it right.

Just post it as an attachment. The option is near the bottom of the page.
